Sporting a justifiable claim as the first among the MAA Sections, the Ohio Section instituted a Centennial Committee in 2008 to prepare for the MAA Centennial by celebrating its own 100th anniversary in 2015. This talk will report on the activities of the Ohio Section Centennial Committee, including: exploratory "dives" into its Archive to mine for interesting tidbits of information that it shares with the Section at a regular meeting fixture called the Centennial Minute; a revision of the Section history; and ongoing provision of tchotchkes to distribute at each Section meeting to remind members about the coming anniversary.
