# PROCEEDINGS

OF THE

# AMERICAN MATHEMATICAL SOCIETY

EDITED BY

RICHARD BRAUER GUSTAV A. HEDLUND A. C. SCHAEFFER

WITH THE COÖPERATION OF

R. C. BUCK W. H. GOTTSCHALK BJARNI JÓNSSON

E. A. CODDINGTON BERNARD FRIEDMAN MARSHALL HALL, JR. E. R. KOLCHIN A. E. TAYLOR

J. A. JENKINS E. E. MOISE

**VOLUME 5, NUMBER 2 APRIL**, 1954

PUBLISHED BY THE SOCIETY MENASHA, WIS., AND PROVIDENCE, R. I. Journals Published by the

## **American Mathematical Society**

#### **Bulletin of the American Mathematical Society**

This journal is the official organ of the Society. It reports official acts of the Society and the details of its meetings, with abstracts of all research papers presented. It contains some of the officially invited addresses presented before the Society. It contains also announcements and notes on matters of current interest, and reviews of advanced mathematical books.

One volume of six numbers is planned for 1954. The subscription price is \$7.00. The prices of back volumes, insofar as they are available, are as follows: vols. 1-36 (1894–1930), \$7.00 each; vols. 37-53 (1931–1947), \$9.00 each; vols. 54-55 (1948–1949), \$11.00 each; vols. 56-59 (1950–1953), \$7.00 each.

#### **Proceedings of the American Mathematical Society**

This journal is devoted entirely to research in pure and applied mathematics, and is devoted principally to the publication of original papers of moderate length. Volume 1 appeared in 1950.

Articles for insertion in the Proceedings should be typewritten, double spaced, and the author should keep a complete copy. Papers in algebra and theory of numbers should be sent to RICHARD BRAUER, Harvard University, Cambridge 38, Mass.; in analysis to A. C. SCHAEFFER, North Hall, University of Wisconsin, Madison 6, Wis.; in other fields to G. A. HEDLUND, Institute for Advanced Study, Princeton, N. J. All other communications to the editors should be addressed to the Managing Editor, A. C. SCHAEFFER.

One volume of six numbers is planned for 1954. The subscription price is \$11.00. Vols. 1-4 (1950-1953) are available at the price of \$11.00 each.

#### Transactions of the American Mathematical Society

This journal is devoted entirely to research in pure and applied mathematics, and includes in general longer memoirs than the PROCEEDINGS.

Normally, two volumes of three numbers each are published annually. The price per volume is \$6.00. Volumes 1–36 (1900–1934) consist of four numbers each. Volumes 66–67 (1949) consist of two numbers each. The prices of back volumes, insofar as they are available, are as follows: vols. 1–21 (1900–1920), \$7.00 each; vols. 22–32 (1921–1930), \$8.00 each; vols. 33–36 (1931–1934), \$9.00 each; vols. 37–75 (1935–1953), \$6.00 each.

#### **Mathematical Reviews**

This journal contains abstracts and reviews of the current mathematical literature of the world. It is sponsored by thirteen mathematical organizations, located both in the United States and abroad.

The publication of MATHEMATICAL REVIEws was begun in 1940. It appears monthly, excepting July, and the price per annual volume is \$20.00. Orders for complete volumes only are accepted. Volumes 1–14 (1940–1953) are available at \$20.00 per volume.

Copyright, American Mathematical Society, 1954 Printed in the United States of America

The PROCEEDINGS OF THE AMERICAN MATHEMATICAL SOCIETY is published bimonthly, in February April, June, August, October, and December. Price per annual volume is \$11.00. Subscriptions, orders for back numbers, and inquiries in regard to nondelivery of current numbers should be addressed to the American Mathematical Society, 450 Ahnaip Street, Menasha, Wis., or 80 Waterman Street, Providence 6, R. I. Entered as second class matter at the post office at Manasha, Wiscardia, Authorization, Authorization, Street, Provi-

Gence O, R. 1. Entered as second-class matter at the post office at Menasha, Wisconsin. Authorization is granted under the authority of the act of August 24, 1912, as amended by the act of August 4, 1947 (sec. 34.21, P. L. & R.). Acceptance for mailing at the special rate of postage provided for in section 35.40 paragraph d, P. L. & R.

### CONTENTS

Vol. 5, No. 2	<b>APRIL</b> , 1954	Whole No	<b>b. 26</b>
			Page
Topological degree of Dimension lowering m	some mappings. By JANE appings of convex sets. By	CRONIN R. H. Sorgen-	175
FREY Some remarks on con	tinuous transformations. I	By V. L. Klee	179
and W. R. UTZ On paracompact space Countable paracomp	es. By C. T. YANG actness in linearly order	ed spaces. By	182
B. J. BALL Sets which separate s On a double eigenval Note on a converse of	pheres. By J. W. KEESEE. ue problem. By A. D. ZIEI Lucas's theorem. By E. CI	BUR	190 193 201
J. WOLFE On estimation of elec	tro <b>st</b> atic capacity. By P. F	C. GARABEDIAN	203
and M. SCHIFFER. On the coefficients	of univalent Laurent ser	ries. By ZEEV	206
On derived and integ	gral basic sets of polynom	ials. By R. H.	212
MAKAR	ummability involving infi	nite limits. By	218
S. K. BASU	g the Riemann zeta funct	ion. By T. M.	226
On the asymptotic dis Two theorems on alr	stribution of certain sums. nost sure convergence. By	By N. J. Fine. J. R. Blum.	239 243 253
Volume-preserving tr ables. By ARNE M A property of quasi-	ransformations in several AGNUS conformal mapping, By H	complex vari-	256 266
Remark on a certain FRANK and OSKAR	class of continued fraction PERRON	ns. By Evelyn	270
On analytic normal o On maximizing an in	perators. By S. L. JAMISON ntegral with a side condit	tion. By R. C.	283
EMERSON The zeros of a certa	in class of indefinite integ	grals. By A. E.	291
LIVINGSTON Hermitian spaces in	n geodesic correspondenc	ce. By W. J.	296
Diameters of convex A note on the wave of On a variational prob	bodies. By P. C. HAMMER equation. By J. B. SERRIN lem having a third order di	ferential equa-	301 304 307
tion as a necessary COOPERMAN	y condition for an extrem	um. By PHILIP	309
On Bernstein's self-d By RICHARD MON	ual set of postulates for Bo rAGUE and JAN TARSKI	olean algebras.	310
Proof of the well-on HÖNIG	dering of cardinal numb	bers. By C. S.	312
On the convergence BARRY	of ordered sets of project	ions. By J. Y.	313
Loewy chains and un HOSTINSKY	niform splitting of lattices	. By L. Aileen	315
Regions of exclusion SCHNEIDER	for the latent roots of a m	atrix. By Hans	320
On ordered division in Note on irregular pri	mes. By L. CARLITZ	Mortor chai	323 329
By C. DERMAN.	rundamental equations in	markov chains.	332

GEORGE BANTA PUBLISHING COMPANY, MENASHA, WISCONSIN
